

heddier Handset Futura

Vandalism-Secured First-Class Handset

The Futura handset combines timeless design with high protection against vandalism. The handset is especially designed for the use in museums and exhibitions. Made of high-quality aluminium, it fits neatly into the hand. Integrated rubber rings enable a comfortable operation even over a longer period of time. The handset is hooked up via an armoured helix cable. Thanks to this robust construction there is no need for using externally visible screw connections. Hence, the possibility of damaging the Futura handset's mechanics is reduced to a large extent.

Yet, not only the outside is convincing. The integrated broadband loudspeakers guarantee a high-quality playback of spoken and musical recordings. On demand, it is also possible to order models featuring vandalism-secured pushbuttons and microphones. A wall-mounted bracket for installation on walls is included in the delivery.

Applications and Application Areas

- Handset for museum exhibits
- Handset for video and audio stations
- Playback medium for Audio player
- Headset for miscellaneous applications

Technical data

Type of construction:	vandalism-secured handset made of aluminium
Audio Specifications:	internal speaker, impedance 8 Ohm Optimized transmission ranging from 45 – 5000 Hz Impedance 8 Ohm Nominal capacity 0.1 watt Maximum capacity 0.2 watt Audio pressure 88 dB +/- 3 dB
Operating temperature:	-25° - + 50° Celsius
Sizes:	Handset 1900 mm length, 30 mm diameter Connection cable 900mm length, 9 mm diameter Wall mount bracket 46 x 46 x 30 in mm, 2 drillings
Weight	Handset ca. 200 gram Connection cable ca. 150 gram Angel support 34 gram Scope of delivery: handset, connecting cable and wall mount bracket
Other:	Models with integrated pushbuttons and microphones available on demand.

Technical changes and errors reserved.
