

Open frame touch monitor ET-15-IT

The ET-15-IT is a 15-inch open frame touch monitor with the latest touch technology. Museum, exhibition, retail and hospitality environments present unique performance and durability requirements for touch screens.

This rear-mount 4:3 touch monitor is designed for versatile use with proven expertise and reliability built in. An integrated precision mini-bezel seals the touch screen against dirt, dust and liquids which simplifies integration into the final enclosure.

To present content effective and visually appealing, heddier electronic offers the opportunity to develop individual touch applications for your needs.
