

# Open Frame Display HE-27W-OFD

The 27" heddier Open Frame Display HE-27W-OFD is recommended for the museums and exhibition sector. It was designed for installations in surfaces to turn them into video stations.

The HE-27W-OFD has the common video interface DVI. The display is known for its low power consumption, while it's still effective.

Mounting brackets make it easy to install and give the open frame display the stability needed.
